God creates the flowers and trees  
The little birds that we hear sing  
The mountains high and the mighty seas  
We owe God for everything.

God walks these beautiful hills with me  
He's by my side sunshine or rain  
Creating beauty for all to see  
We owe God for everything.

God creates the flowers and trees  
The little birds that we hear sing  
The mountains high and the mighty seas  
We owe God for everything.

--- Instrumental ---

God loves the poor and rich alike  
Bringing comfort in sorrow and pain  
He always helps us to see the light  
We owe God for everything.

God creates the flowers and trees  
The little birds that we hear sing  
The mountains high and the mighty seas  
We owe God for everything.

We owe God for everything...
