What I believe, dear, is all up to you

Those things they are saying

Don't have to be true

I'll tell my heart they lied

All gossip can't be true

For what I believe, dear, is all up to you

I'll put my faith in you as long as I live

To prove that my love is true

What more can I give

Let the rumors fly, who cares

As long as you're true

For what I believe, dear, is all up to you

(Repeat first verse)
