You can't relive your past with the dream that's gone
You can't find love that will last in your world alone
A hurt so tall has built the wall where fate begins
What locks the door to the world you're living in.

What locks the door to the world you're living in
What kind of key do I need to get in
I tried anything from solid gold to cent
What locks the door to the world you're living in.

--- Instrumental ---

Somehow someday I'll find the way to warm your heart
And take anyway this thing that's keeping us apart
I need you now but even more I need you then
What locks the door to the world you're living in.

What locks the door to the world you're living in
What kind of key do I need to get in
I tried anything from solid gold to cent
What locks the door to the world you're living in...
