Honey, squeeze me right into and thrill my body  
through and through  
Let your heart beat just for me alone  
Let your eyes cry lot of tears you better love me while  
I'm here  
'Cause honey, you can't love me when I'm gone.

I'm gonna be long time gone some nights when you  
come home  
You're gonna find yourself in the middle of a teardrop  
all alone  
Well, I stood all I can stand you better love me while  
you can  
'Cause honey, you can't love me when I'm gone.

--- Instrumental ---

You better stop your runnin' around and put your feet  
back on the ground  
That little white house gonna burst your standing on  
Don't you call it this backyard cause these old arms are  
tired  
And honey, they won't catch you, they'll be gone.

I'm gonna be long time gone some nights when you  
come home  
You're gonna find yourself in the middle of a teardrop  
all alone  
Well, I stood all I can stand you better love me while  
you can  
'Cause honey, you can't love me when I'm gone.

'Cause honey, you can't love me when I'm gone...
