"You Left Your Mark On Me"

Visit "[You Left Your Mark On Me](#)" on MotoLyrics.com

You left your mark on me beggin' on my heart to stay
Time by no one will erase it away
In public I wear a smile hold my head up high
Inside I'm so lonesome, alone in a crowd.

From morning till night, from night until the dawn
I'll wake up crying because you're gone
Though we are far apart still I can't be free
There's no use denying you left your mark on me.

--- Instrumental ---

I try but it's no use to drag your mem'ries away
You're in my heart and bear to stay
I'll keep it to myself no one else will know
The worst stars in life ain't never show.

From morning till night, from night until the dawn
I'll wake up crying because you're gone
Though we are far apart still I can't be free
There's no use denying you left your mark on me.
