(Bill Owens)

Your love is the way I always thought love should be
Your love is the kind of love that makes me happy
No tears and sorrow and no misery
Your love is the way I always thought love should be.

Now I've been hurt in love before
But I'll never be hurt by love anymore
I've finally found what I was searching for
Your love is the way I always thought love should be.

Your love is the way I always thought love should be
Your love is the kind of love that makes me happy
No tears and sorrow and no misery
Your love is the way I always thought love should be...
