Your jealous heart I can't understand
You get mad if I look at another man
No fate in your love no respect for mine
Making things up in your selfrighteous mind.

You're no angel yourself why pretend to be
You may fool others but you can't fool me
Take away false strife what have you got left
Climb off your high horse you're no angel yourself.

--- Instrumental ---

When we took the vows that made us one
Our love was sweet and life was fun
Sure I made mistakes before I met you
But look at yourself didn't you make them too?

You're no angel yourself why pretend to be
You may fool others but you can't fool me
Take away false strife what have you got left
Climb off your high horse you're no angel yourself...
