I make all the honky tonks and taverns  
Just to see who's hanging round  
And there I try to drown my sorrow  
Just because you let me down.

I can't get someone to kiss me  
I can't get someone to care  
But when I need someone who loves me  
You're not easy to forget.

--- Instrumental ---

Last night while dancing with another  
And gazing in those eyes of blue  
I just knew I could never love him  
If I'd never dated you.

I can't get someone to kiss me  
I can't get someone to care  
But when I need someone who loves me  
You're not easy to forget...
