From far beyond the mountains of Crom  
Where the forces of winter spare only the strong  
Strides forth a son of the north  
Destined to conquer, and die by the sword

And like the sun, he rises with golden light  
Reaching with his rays into the world  
But like the sun, each time he's destined to set  
And is forced to hide in the dark...

[Chorus:]

... where his wounds bleed in silence  
Blazing eyes now reduced to dying embers  
"Oh, black winged goddess,  
You've struck me again with lust, please stop the  
bleeding -  
You've taken enough!"

Across the earth he strides,  
And when he strikes he always triumphs  
Still he never forgets the shadow of the goddess,  
Haunting his steps

And like the moon, his restless eyes shine in the night  
Joining the orgy of the stars  
But like the moon, his full heart is destined to wane  
And is forced to hide in the dark...
