Looking back in my youth
I wish I knew the things that I know now
But it all has changed
And we'll have to move on to a new time

I've had my fill, my share in this life Full of it's ups and downs What I see is that we should come Together and open our eyes

We need to get a little pushy-pushy No time for us holding on We got to get busy-busy Come together work as One

Walking back through my area

I just stand and stare Things could be a little bit brigther Everyone knows we care

Talk in the Big House Them 'go fix it so and so Them ain't doing nothing That's the way it always go

Away with depression Get a good education No complication Let's all join hands together

We want it, yes we really want it We need it, yes we really need it
