Chorus

Do you wanna go with me? Do you wanna go?  
Do you wanna go with me? Do you wanna go?

I know a place, ain't nobody dying there  
I know a place, there ain't nobody crying there  
I know a place, we all gonna be together now  
I know a place, we gonna live forever now

Chorus

I know a place y'all, hey y'all, where you can see  
God's face y'all  
In this space y'all but wait y'all, see I state y'all you  
can just debate y'all  
But I'm a step up and just set it all straight y'all  
See what I've played y'all is a song that straight calls  
You to understand the plan that my God has gave  
y'all  
To every man woman and children he came y'all to  
save y'all  
And that's why I just got's to take y'all

Chorus

Do you wanna now go with me y'all? Well c'mon now  
and roll  
With me y'all, there is one who goes with me  
Who's deep down in my soul with me  
He gives me everything and all I need, if I fall he's got  
a hold on me  
Cause when I call you're always there for me, so do  
you wanna go wanna go with me?  
Do you want to go? (Do you want to go with me?)  
Do you want to roll (Do you want to roll with me?)  
Is he in ya soul? (Do you know the one in me?)  
Do you want to know? (Then why don't ya come with  
me)
