Hello how ya doing? Can we keep it moving?
It's the KJ-52 along with the John Reuben
And we stady colling mic checking one two and
The choice is yours now cause this is what we doing
You can get with this cause this for us this is life
But if you get with this understand this is Christ
Otherwise you other guys get with that
Mr. John Reuben can you tell me where the party's at?
(John Reuben)
Alright thanks my friend from the sons of "in"
We move to the rhythm without wondering
Yahweh comes first all is under Him
Take a dope emcee and then double him
And you got two, okay that's me and you
Mr. John Ru with the KJ-52
Doing what it takes to light up the ear hole
A lot of energy absolutely no soul...

You can get with that or you can get with this
You can get with that or you can get with this
You can get with that or you can get with this
You can get with this cause this is what it is

We got phat beats but what the facts be
Is that without Christ then the track be empty
So understand simply that we ain't just emcees
We simply just state that "Christ has changed me"
Look at us strangely you it's all the same
We don't care now pep the message we send thee
So real swift when the enemy tempt me
I'm like "do da dippity" c'mon...
(John Reuben)
I'm going this and that I write that and this
But if that's not life well then it must be dismissed
No time for negative got to be positive

Clear and sincere I think we state the obvious or is it?
Cause I found this to be true
So many times I do what I hate to do
Brought back to the fact that I'm in need of You
But then again what else is really new?

You can get with that or you can get with this
You can get with that or you can get with this
You can get with that or you can get with this
You can get with this cause this is what it is

Engine engine number 9
Party peoples feeling find
If your line goes off the track
Pick it up pick it up pick it up!
Ya back on the scene crispy and clean
You can get with that plus the gat and the cream
Or you can get with this and let Christ reign supreme
But now the choice is still yours can you see what I
mean?

(John Reuben)

You see we seek life in abundance
Allright Yahweh came through and then gave me
substance
Overflowing we let it spill on the mic
Embrace the truth and then we keep it focused right
Despite the obstacles can't let t sway me
Even though at times my vision get hazy
I say we stay on the path that leads to life
No matter how narrow we can't lose sight...
