Almost out of gas and darn I wish I would've asked him
If he's gonna be home late again tonight
Gotta turn these movies in, I swear I'm nearin' my wit's
end
And Jen your dad said, "No, I'm sorry but that's life"

Thinkin' three things at one time
That's what's going on in the mind of this woman

I need to lose ten pounds
Feel like I'm going 'round and 'round in circles
Someone stop this world and let me off
Think I'll call my best friend Sue
Hello, hey girl, what's new with you?
Well, I swear if it were me I'd tell him off

Thinkin' three things at one time
That's what's going on in the mind of this woman

Sometimes I wonder if I'm coming or I'm going, have to
stop
Catch my breath, step back and look at where I am
I love my life one minute then I hate like hell I'm in it
But I don't expect myself to understand

Think I'll stop and wash the car, grab some lunch and
kill an hour
'Cause I gotta pick the kids up after school
Then I drift off to the last time we made love, oh, it was
so fine
There's that laundry list at home I gotta do

Thinkin' three things at one time
That's what's going on in the mind of this woman
Thinkin' three things at one time
That's what's going on in the mind of this woman
Of this woman
