"Little Neutrino"

Visit "[Little Neutrino](#)" on MotoLyrics.com

Across your open mind
I trace erratic lines
In motion and in time

I fought a battle won
To the surface of the sun
Through fires on and on

It's only you
It can't be me
For I myself refuse to be
I am someone you'll never know
I am the little neutrino

Solus is not far away
It's face is brighter than a day
So don't turn me away

It's only you
It can't be me
For I myself refuse to be
I am someone you'll never know
I am the little neutrino

And now I'm passing through
The one who's known as you
And yet you'll never know I do

"Good-night"
