It's not the same  
Without my pain  
They're gone but  
Still I'm falling over

I'm not myself  
I am undone  
You're here so  
Now I'm starting over

Can you believe?  
I found myself  
A special kind  
That keeps me safe

And for all this  
I try my best  
To keep you nearer, closer

I won't let go  
Just for their show  
This time I finally found  
What I'm searching for

This time I won't believe that I'm broken  
I won't listen to what has been spoken  
You fought for me so now I won't fake it  
This love is what makes me feel unhated
