My Juicy Lucy, you're so exciting  
Eyes of blue and hair of lightning  
You jet around in your  
Chrome atomic platform shoes  
I'm so in love with you  
My Juicy Lucy

You spend your evenings with Alexander  
That fire-breathing salamander  
Who sings the blues  
And plays electric guitar too

Lucy kissed me and she said, "Can't you?"  
I said "No," but I was willing to  
Love you with all my might  
Though a million nights  
Wouldn't be enough it's true  
'Cause Juicy Lucy, I'm so in love with you  
It's the way you rock'n'roll  
You're too too much, you're too too much  
You're too too much my Juicy Lucy

Oh! Lucy kissed me and she said, "Can't you?"  
I said "No," but I was willing to  
Love you with all my might  
Though a million nights  
Wouldn't be enough it's true  
'Cause Juicy Lucy, I'm so in love with you  
It's your chrome-atomic platform shoes  
Won't you let me get my boots on too  
And we'll sail across the sky so blue  
Ah, look out sky, here we come!  
My Juicy Lucy
