Across your open mind  
I trace erratic lines  
In motion and in time

I fought a battle won  
To the surface of the sun  
Through fires on and on

It's only you  
It can't be me  
For I myself refuse to be  
I am someone you'll never know  
I am the little neutrino

Solus is not far away  
It's face is brighter than a day  
[Little Neutrino lyrics on ]

So don't turn me away

It's only you  
It can't be me  
For I myself refuse to be  
I am someone you'll never know  
I am the little neutrino

And now I'm passing through  
The one who's known as you  
And yet you'll never know I do

"Good-night"
