Mama don't need to Ph.D. in sociology  
To be aware of the revolution happening in the streets  
Papa said trends keep changing like the tides upon the  
sea  
I'm gonna jump on the wagon now to rest my aching  
feet

I've made up my mind and I'm gonna get my piece too  
Now is the time there isn't a day to lose  
I've had it to here just watching that world go by  
This is the year that either we do or we die

(chorus)

Sell out, sell out that's the name of the game  
Sell out, sell out that anybody can play  
Sell out, sell out I think you know what I mean  
Sell out, sell out crank up that funk machine

I'm tired of breaking my back to please  
Critics who can't be pleased  
It's time I looked out for number one  
Time I looked out for me  
I've gotta face the reality of living in the real world  
Before I end up an old man feeding peanuts to the  
squirrels

I finally heard the little voice in my head  
It gave me the word you wanna know what it said?  
Don't be a sap get rid of that cross you bear  
'Cause taking the rap won't make you a millionaire

(chorus)

Sell out, sell out can't pay no bills with your pride  
Sell out, sell out I know 'cause baby I tried  
Sell out, sell out it's easy once you concede  
Sell out, sell out that love ain't all you need

Play that funky music play that funky beat  
Play that funky music love ain't all you need

The ivory tower's fallen down

The nickels and dimes are spent  
I've given up castles in the air  
I couldn't afford the rent  
Every man has his selling price  
I'm taking the highest bid  
Come out of the clouds, Sir Rupert said  
And do what Stevie did

(Peddle yourself!) Peddle yourself you'd better take my  
advice  
Or sit on the shelf he couldn't be more precise  
Don't get me wrong I'd hate to be misconstrued  
But stringing along it's the only left to do

(chorus)

Yeah sell out, sell out you've gotta move with the times  
Sell out, sell out or they'll surely leave you behind  
Sell out, sell out there's no sweeter sound than the  
crash  
Sell out, sell out of freshly minted cash

Play that funky music play that funky beat  
Play that funky music love ain't all you need

Sell out sell out sell out  
Sell out sell out sell out
