"Bleed Me Dry"

You try to take it all I have
Never releasing
At this point my chance of survival
Quickly decreasing
Nothing in my world you leave me
Yeah gone forever
Nursing the wounds that you've left me
Never recover
Bleed my dry
Bleed my dry
suck...
your case your preaching
I've heard it and I've discovered
How can you preach love
You've shown me you hate each other
Something in my mind don't seem right
I must be crazy
You think you can spit in my face
And it won't phase me
Bleed my dry
Bleed my dry
suck...
Sucking the life out of everything
I hold sacred
Take all you want till your finished
And I'm left naked
Crushing my will to continue
So elegantly
Cover my mouth so I can't breath
You suffocate me
Bleed my dry
Bleed my dry
suck...
