Michael Davis)
Guns of war must come down
They will run, in this city
Men of hate come around
Want to rule in this city
Their guns are big their bombs are loud
We will lose our city
This empire is falling down
It would crush us in this city
Still my hope is all around
It will linger in this city

CHORUS

Revolution never dies
We're a nation in our city
'Cause when I step out on the street
Feel it pushing at my feet
Feel the living all around
See another smiling child
Then the vultures of dominion
Abortions of man's wisdom
The soldiers of paid perversion
Cannot touch us now
Not now
Guns of war must come down
They will run this city
Governed leaders they are proud
We will stop them in this city

CHORUS

'Cause when I step out on the street
Feel the hunger and the heat
Feel oppression all around
See another crying child
Then the vultures of dominion
Abortions of man's wisdom
The soldiers of paid perversion
Cannot stop us now
NOT now.
