Row! There's only seven more miles to go
Row! There's only seven more miles to go
Row! There's only seven more miles to go
Row! There's only seven more miles to go

Row! There's only seven more miles to go
We'll reach the Isle of Her
Row! There's only seven more miles to go
We'll find the peacocks tail
Row! There's only seven more miles to go
We'll steal the mother of pearl
Row! There's only seven more miles to go
We'll eat the dancing girls

Cyclops gazing alone
Row!
Facing mirrors that show
Row!
The reflection of his own
Row!
Face to face

A hand on each of the oars
A hand on each of the oars
We're seven miles from shore
Just keep on going

Row! There's only seven more miles to go
We'll sail across dry lands
Row! There's only seven more miles to go
We'll cut the grass in all
Row! There's only seven more miles to go
We'll steal the single jewel
Row! There's only seven more miles to go
We'll wipe the crystals dry
A hand on each of the oars
A hand on each of the oars
We're seven miles from shore
Just keep on going

A hand on each of the oars
A hand on each of the oars

We're seven miles from shore
Just keep on going

Row! There's only seven more miles to go
Row! There's only seven more miles to go
Row! There's only seven more miles to go
