In the year of our Lord Nine-ninety two,
the Justified Ancients of Mu Mu
set sail in their long boats
on a voyage to rediscover the lost continent.

After many months on perilous, stormy seas,
their search was fruitless.
Just when all seemed lost,
they discovered AMERICA (AMERICA)

The music you are about to experience
is the celebration of the one thousandth anniversary
of their founding of this great nation.

The lyrical Prophet just can't stop it
The way I drop it and change the topic
Get hyped to the tongue of a native
So creative - KLF made it
We came a long time ago
Nine Nine Two - but you did not know
So if you think that the going gets tough
Just remember
What Time is Love
What Time is Love
What Time is Love
I wanna see you sweat (I wanna see you sweat)
I wanna see you sweat (I wanna see you sweat)
America (I wanna see you sweat)
America
Get higher

Take a chance to advance and participate
I devastate - The rhymes are great
We had to pass the pyramid blaster
The JAMs are here, to put you in a rapture
To make you, shake you, break you, take to
Right in the path, what they call the Mu Mu
KLF - Can you get enough? Bring the break
What Time is Love (Ooooh Ooooh)
What Time is Love (Ooooh Ooooh)
What Time is Love (Ooooh Ooooh)

I wanna see you sweat (I wanna see you sweat)
I wanna see you sweat (I wanna see you sweat)
America
I wanna see you

Be young, be free, the american way
Be young, be free, the american way
America
America
America
America
Ohhhhhh get higher
Ohhhhhh get higher
Be young, be free, the american way
Be young, be free, be rich

We Love You

The final chapter, copecetic, poetic

When I've done - This calls for anaesthetic
Make way for a positive thing
A theme, a dream and the man might sing
We came a long time ago
Nine nine two but you did not know
So if you think that the going gets tough
Just remember

What Time is Love (Ooooooh Ooooooh)
What Time is Love (Ooooooh Ooooooh)
I wanna see you sweat (I wanna see you sweat)
I wanna see you sweat (I wanna see you sweat)
