"Her Love Is Happy"

Visit "[Her Love Is Happy](#)" on [MotoLyrics.com](#)

It tells a strange feeling you know
You make her high you make her low
Why does it have to be like this
Sometimes I wish you could change your ways
Cuz you know the worst just far too well
You wont lack in, you have nothin to spare
Her love is happy when you go
Her love is happy on her own

(La la la la la la laaaaa)

It tells a strange feeling you know
You wanted all you haven't known
Open your eyes and make her stay
She's far too close to move away
Cuz you so sure to be her only one
It's not your fault whether she's hurt or she's gone
Her love is happy when you go
Her love is happy on her own
(La la la la la la laaaaa)
