Take what you want from this lonely night  
With a gentle and demanding mouth.  
Between a smile and a tear

"dne eht ot su gnirb ot seirt  
Yaw yklim eht; seiks yrrats rednu  
, esolc uoy dloh l."

[Reverse:]

(I hold you close,  
Under starry skies; the milky way  
Tries to bring us to the end)

I'm only living to sing this song.  
I'll be still and say no more.  
I don't need to hear you explain

".seil ruo rof yrc  
Ll 'ew, esimorp a ekam ew; thgilnus rof  
Gnitiaw, thgin eht thguorht gnitsaL.uoy si tnaw llla,  
wols gninrub ma l.evol rof evil tsuj l.emit on si ereht  
esuac"

[Reverse:]

(Cause there is no time. I just live for love. I am burning  
Slow, all I want is you. Lasting through the night,  
waiting  
For sunlight; we make a promise, we'll  
Cry for our lies.)
