Welcome aboard the crazy trip
A circle of fools say hi
Watch your step or you might trip
We're glad you came on by

The guys and I prepared a brew
You really ought to taste
It makes you strong and makes you
Don't let it go to waste

All of us are going down
All of us are going down

Great that we pretend that we are all that
We enjoy ourselves, should we get some help?
We have always failed yet there is no doubt
Can't go wrong from here, we are down and out

Care for some sweets to chase your drink?
I see that you've quite a thirst
No, no, no, you can't yet go
First things must come first

All of us are going down
All of us are going down

Great that we pretend that we are all that
We enjoy ourselves, should we get some help?
We have always failed yet there is no doubt
Can't go wrong from here, we are down and out

We are down and out
We are down and out

Delicious, not, you feel alive
You need a little space
So you're not feeling well
What's wrong with your face?

Great that we pretend that we are all that
We enjoy ourselves, should we get some help?
We have always failed yet there is no doubt

Can't go wrong from here, we are down and out

We are down and out

We are down and out

Holy smokes, we goofed again

The brew was not quite right

We'll throw him back behind the pen

And try again tonight

Welcome aboard the crazy trip

Circle of fools say hi

Watch your step or you might trip

We're glad you came on by

Great that we pretend that we are all that

We enjoy ourselves, should we get some help?

We have always failed yet there is no doubt

Can't go wrong from here, we are down and out
