Take me to your eden
Pitchblack garden of evil
Here and back
Full-defense attack
Static white-noise
A cross to bear I come to confess

I'm not leaving
I'll find my way back home
However far we go
Come what may no regrets
Pull me in
Don't look back

Dystopia
The world is ours alone to waste
Dystopia
Drowning in our misery
All this time - all your rage
Breaking down
Talking in tongues again
Harakiri seppuku
I won't stand by and lie in wait

By the power of three I conjure thee
Protect all that surrounds me

Follow you like jesus
Worn-out no control
Alice in a blood-stained dress
Down the rabbit-hole
Beggars scratch screaming
Shattered lost souls
A cross to bear I come to confess

I'm not leaving
You will not walk alone
To face the great unknown
Come what may no regrets
Pull me in
Don't look back
