"From Here On Out"

Visit "[From Here On Out](#)" on MotoLyrics.com

Caught a glimpse of madness
Virtual circus
It's a long way down
Hollow, no protection
Kick, you can scream
Walk your wicked way
Never getting what you need

Want what you want
When you want it
Want what you want
Want what you want
When you want it
Dig me out

No mercy, no mercy
You are what you believe
And you are incomplete
Do as you please
Do what you will
Hang your head in shame
Never getting what you need

Want what you want
When you want it
Want what you want
Want what you want
When you want it
Dig me out

Don't risk your life
And the lives of your comrades
Leave now and go home
Watch your children learn
Do not invite your own destruction
This is a road of no return

From here on out
From here on out

As the kingdom crashes
Cause of actions

You're a hangman now
Swallow dust and ashes
Wish you can dream
Shout your maniacal pleas
Never getting what you need

Want what you want
When you want it
Want what you want
Want what you want
When you want it
Dig me out

Don't risk your life
And the lives of your comrades
Leave now and go home
Watch your children learn
Do not invite your own destruction
This is a road, this is a road of no return

From here on out
From here on out
From here on out

Want what you want
When you want it
Want what you want
Want what you want
When you want it
From here on out

Want what you want
When you want it
Want what you want
Want what you want
When you want it
From here on out
