All you nations
Come and listen
The truth is a mess and the politics are pissing
We need a revolution to rip the system
Thousands are starving and the rest are missing

All you people
This is trash
We abominate music we're here for cash
Barmy army for everyone
Black man white man yellow man
We need a revolution to rip the system
Millions are homeless and the rest are missing

More & Faster
Here we come

White and trashy and incredibly dumb
Enjoy yourselves
Crash Boom Bang!
The final solution
KMFDM
