English translate:

When I have to die I want to strangle myself in your  
black hair

When I have to die I want to suffocate between your  
sweet breasts

When I have to die I want to be blinded by your brown  
eyes

When I have to die I want to cut my veins on your lips

I have not yet ruled enough

My hands in chains

The break, the hole in the wall

When I have to die I want to starve in your lap

When I have to die I want to burn in your bed

When I have to die I want to drown in your heat

When I have to die I want to be poisoned by your blood

When I have to die I want to melt away from your kiss

And then when I'm dead, bury me close to your heart
