Don't say you can't  
Just do what I would do for you  
You watch my back  
And I'll be there to cover you

Do as I say  
And never question what I do  
Two feet away  
There's trouble closing in on you

Close my heavy eyes now  
Give me sleep  
I traveled trouble oceans  
Across the land and sea  
Close my heavy eyes now  
Give me sleep

Don't say you can't  
Just do what I would do for you  
You watch my back  
And I'll be there to cover you

Do as I say  
And never question what I do  
Two feet away  
There's trouble closing in on you

Close my heavy eyes now  
Give me sleep  
I traveled trouble oceans  
Across the land and sea  
Close my heavy eyes now  
Give me sleep
