Read the vision map  
The system soon to look into the mind  
Rediscover one another  
From abnormal points in time

Fascination wish a way in  
To depart before they find  
Get defamed in isolation  
Two plus one negate divine

Feed the vicious escalation  
Never felt such close connection  
Feel the fever-patch persuasion  
News-print, news-peak never-mind

Suffocation and delusion  
From what angle see the truth in  
At an angle point of friction  
Free-fall, tip-off destiny

I've got a fistful of money, I'm down with the twist  
There's plenty of ways, no way to resist  
Every little thing is gonna be fine  
What I like is gonna be mine

Got a fistful of money, I'm high at risk  
There's plenty of ways I couldn't resist  
Six billion souls and one urge to live  
I've got a fistful of money and nothing to give

Free the hostage situation  
Taken as a simulation  
Never was a war more real  
Taken for a dollar bill

Currency add more corruption  
Added population problem  
Feeding hunger starve the weak  
News-print, news-peak never-mind

I've got a fistful of money, I'm down with the twist  
There's plenty of ways no way to resist

Every little thing is gonna be fine  
What I like is gonna be mine

Got a fistful of money, I'm high at risk  
There's plenty of ways I couldn't resist  
Six billion souls and one urge to live  
I've got a fistful of money and nothing to give

That's all  
That's all  
That's all  
That's all

Hate in love desert in good favor  
Diversification of the current flavor  
Speak in tongues like empathy's son  
See the soul disengaging, the sicker they come

I've got a fistful of money, I'm down with the twist  
There's plenty of ways, no way to resist  
Every little thing is gonna be fine  
What I like is gonna be mine

Got a fistful of money, I'm high at risk  
There's plenty of ways I couldn't resist  
Six billion souls and one urge to live  
I've got a fistful of money and nothing to give

That's all  
That's all  
That's all  
That's all

That's all  
That's all  
That's all  
That's all
