I declare war on the world  
War in outer space  
I declare war in a nutshell  
War all over the place

I declare war on every government  
War against all odds  
I declare war on your inner sanctum  
On your bloodthirsty gods

World war three  
Be all that you can be  
World war three

I declare war on the axis of morons  
All out war on complacent consent  
I declare war on the war against drugs  
Rape and slaughter of the innocent

War on big brother  
Warmongers and profiteers  
War on your dogma, Dubya  
Armageddon's engineers

World war three

We're in for a long and a difficult war  
It will be conducted on many fronts  
But as long as it takes  
We will prevail

World war three  
Be all that you can be  
World war three

War in a heartbeat  
I declare war on so called "civilization"  
World trade, globalization  
Organized disinformation

War on ambassadors of pretense  
War on MTV and CNN

McDonald's, Walt Disney, and Bethlehem  
On Christina, Britney, and Eminem

Across the world, governments have heard this  
message  
Either you're with us, or you're with the terrorists  
Tyranny, terror, and lawless violence

I declare war on the world of anti-choice  
On violent unilaterality  
On the amassment of murderous, high-tech toys  
And all crimes against humanity

War on the moral majority  
On corporate dot com imperialism  
On mindlessly bumbling stupidity  
And police-state terrorism

World war three  
World war three  
Be all that you can be  
World war three

Be all that you can be  
Tyranny, terror, and lawless violence  
World war three  
The future belongs to the free
