You don't have to launch your missile to break down my
defense
You don't need to find a jet to end our arguments
We don't have to be like everyone to use our common
sense
So I guess it's time we burned the documents

'Cause you're crazy I'm crazy and there ain't a thing to
lose
Except our pride at suicide of all we've ever knew
And somewhere is where east and west and the wall is
coming down
Some times we celebrate other times we say what have
we done
And I feel you're holding on and I'm holding on too
But no matter what we say or do the wall is coming
down
The wall is coming down
Down
I see you come around
'Cause the wall is coming down

I don't have to build a fortress to hide what you can't
see
I don't have to be the master and hold on to the key
Sometimes I feel so certain that we were meant to be
But I guess it's fine if you disagree

'Cause I'm crazy and you're crazy and there ain't a
thing to lose
Except our pride at suicide of all we've ever knew
And somewhere is where east and west and the wall is
coming down
Some times we celebrate other times we say what have
we done
And I feel you're holding on and I'm holding on too
But no matter what we say or do the wall is coming
down
The wall is coming down
Down
I see you come around

'Cause the wall is coming down

So whenever we turn the wheel peace talking make a deal

You remind me of palace time and I feel so Israel
Look at all the walls I've built and look at all the guards
you've killed

And if the gates would open would it be more loving
Or would all my fears turn real

So for now I suppress your demonstration and I
undress you here's the question

This love making a masturbation if every touch feels
like instigation

I'm so sure if we all trusted the force of love
Even if our past is awful also break our pride in the
torso

Whatever it takes for down these walls go

And somewhere is where east and west and the wall is
coming down

Some times we celebrate other times we say what have
we done

And I feel you're holding on and I'm holding on too
But no matter what we say or do the wall is coming
down

The wall is coming down

Down

I see you come around

'Cause the wall is coming down
