Warned too late a simple reduction
Not with your weight
Well I'm sorry there's nothing
And I believe just can't fight this suction
And I believe
And it's over before it was done
There's nothing to fear
Filled with courage
They cannot conceive of wasting another year
And sworn to their fate but lost the instructions
Not with their hate
They should've thought it was something

Well I believe I just can't fight this suction
And I believe
And it's over before it was done
There's nothing to fear
Filled with courage
They cannot conceive of wasting another year
