Hear my trumpets of light
Can you take me for a while?
Let's try
I want to bend my soul again
That's what we do when we get older
Where's your drop of light?
You got to work it and you got the cuffs obviously
scared
There's the watering
About geography

The more the hand you're holding
You're paying someone to put to bed

And that's why it hurts
The difference
And this is how to play
An indifference
Oh difference
And an indifference would make

Hear my prayers then
If you destroyed it, why you just keep by?
Always getting standards
The property's prophet around
See it super slow
And just what is it cause it's working like fear with
lungs
It's not that easy
When you want it easy

And that's why it hurts
Is it a difference?
It's raging now
An indifference
Oh difference
And an indifference would make

Had to leave me there
Had to feel the same
We need to rest sometimes but don't take me

There's something in the system, that snail circulates
Dig a hole in the backyard
And dream of blood
