Yo, Operator jack it up

And make the girls them on de dance floor back it up

Yo, tell the selector fe pull it up

The place hot but a hot girl pull it up

Yo, Operator jack it up

And make the girls them pon de dance floor back it up

Ah what dem think?

Ah what dem feel?

Ah what dem think?

Clean Steel!

(chorus)

Tic Toc Tic goes the clock

Informers dance to the sound of my glock

They all get scared when they hear the thing cock

Rude boy there and we have the place lock

Tic Toc Tic goes the clock

Blaze up the fire make the fussy dem drop

Chilling in the club

Champagne a pop

Getting that money and we ain't gonna stop

We gonna party like we never had a party yet

She get scared cause she never had a yardie yet

Tipsy because she never drink Bacardi yet

She never get it 'til she sing a Bob Marley yet

I like the way she keep it tight like she celibate

She have me acting like a bedroom degenerate

Turn on the charm and me get her whole body wet

Off the bed, on the floor, pon the laminate

I hear the enemies ah call out meh name

Them act like them think it is a game

Let them know when we roll we roll deep

Bad man put them to sleep! Bad a week!

(chorus)

She's all over me that is so ironic

Rockin' them sevens and brown man hold a blonic

Whisper in my ear she wha fly supersonic

Vitamin S - she want the natural tonic

Real street hustler we grow hydroponic

Jamaican niggas doh live without chronic  
Snitches and rats make me get demonic  
Run up in the club and make the whole place panic  
Never trust a rat cause dem love chat ya heard  
Snitch will always be a snitch mark meh word  
Flex like a fool get caught like a nerd  
Go jail and go sing like bird
