Sometimes I get problems that are hard to solve
What's your story?
That's my opinion

Questions and the answers can take very long
Here's a story
What's your opinion?

Sometimes I get problems that are hard to solve
What's your story?
That's my opinion

Questions and the answers can take very long
Here's a story
What's your opinion

Of all the guys and the signori,
Who will write my story,
Get the picture, they get glory
Who looks after my story?

All the guys and the signori
Telling another false story

Liberals giving me a nerve itch
Liberals giving me a nerve itch
Liberals giving me a nerve itch
Liberals giving me a nerve

Now living and always moving
Now living and always moving

Not a vagina, it's an option
The cock had it coming

Not a vagina, it's an option
The cock had it coming

Now living and always moving
Now living and always falling

Sometimes I get problems that are hard to solve
Here's a story
That's my opinion

Liberals giving me a nerve itch
Liberals giving me a nerve itch

When you're full of fire,
What's the object of your desire?
When you're full of fire,
What's the object of your desire?

When you're full of fire,
What's the object of your desire?

Asking questions that are easy to reply
Asking questions that are easy to reply

When you're full of fire,
What's the object of your desire?

Let's talk about gender, baby,
Let's talk about you and me
Let's talk about gender, baby,
Let's talk about you and me
Let's talk about gender, baby,
Let's talk about you and me
Let's talk about gender, baby,
Let's talk about you and me
