

## Knife, The "Silent Shout"

I never knew this could happen to me  
I know now fragility  
I know there's people who I haven't told  
I know of people who are getting old

Wish I could speak in just one sweep  
What you are and what you mean to me  
Instead I mumble randomly  
You stand by and enlighten me

In a dream I lost my teeth again  
Calling me woman and a half man  
Yes, in a dream all my teeth fell out  
A cracked smile and a silent shout  
A cracked smile and a silent shout

If I explain it once thoroughly  
He'll have you later 'cause it's never free  
You were at the gigantic spree  
I caught a glimpse, now it haunts me  
I caught a glimpse, now it haunts me
