We came down from the north
Blue hands and a torch
Red wine and food for free
A possibility

We share our mothers' health
It is what we've been dealt
What's in it for me?
Fine, then I'll agree

Trees there will be
Apples, fruits maybe
You know what I fear
End is always near

Trees there will be
Apples, fruits maybe
You know what I fear
End is always near

Say you like it, say you need it
When you don't
Looking better, shining brighter
Than you do

Say you like it, say you need it
When you don't
Looking better, shining brighter
Than you do

Say you like it, say you need it
When you don't
Looking better, shining brighter
Than you do

Say you like it, say you need it
When you don't
Looking better, shining brighter
Than you do

Say you like it, say you need it
When you don't

Looking better, shining brighter
Than you do
