People say that together we were both sides of the  
same coin

That we would shine like Venus in a clear night sky  
We thought our love could overcome the  
circumstances

But my ambition wouldn't allow for compromise

I could see in the distance all the dreams that were  
clear to me

Every choice I had to make left you on your own  
Somehow the road we started down had split asunder  
Too late to realise how far apart we'd grown

Chorus:

How I wish I, wish I'd done a little bit more  
Now "Shoulda, Woulda, Coulda" means I'm out of time  
Coz "Shoulda, Woulda, Coulda" can't change your  
mind

And I wonder, wonder what I'm gonna do  
"Shoulda, Woulda, Coulda" are the last words of a fool

People ask how it feels to live the kind of life others  
dream about

I tell them everybody gotta face their highs and their  
lows

And in my life there's a love that i put aside  
Cause I was busy loving something else  
So for every little thing you hold on to, you've got to let  
something else go

Chorus

Fool if I would now forsake the opportunities are fake  
I know I'm right where I belong  
But sometimes when I'm not that strong

Chorus(x2)

Can't change your mind
