[Knightowl(Talking)]

Yeah that's right

The Knightowl's back

With some thing funky for that mind

It's all about that 6-1-9 baby

Yeah [Yeah]

The Knightowl's going off and I'm coming insane

When I rock the mic never hear no complains

Who be the fool they be asking "Where's he from"

It's all about those Westcoast guns

Putting fools in the box wearin make-up

You messed around boy and now you'll wake up

You had a chance but your last dance came though

When I saw that face up in my window

Alot people said "Damn he did he's in trouble"

They too felt the heat as I pumped out the double

Barrel, bullets fly like sparrow, I'll shoot like an arrow

But first, I take your deniro

Gimma all your goods, best come out the pocket

Show fools how it's done as I rock it

Straight out the city of the Big Diego

You want to do in fool but you ain't able

[Chorus]

When I'm around everybody lock down

Knighthowl be that fool with the Westcoast sound

Diego be the city and I represent the west

Ain't a coast like me we strickly the best

[Knighthowl]

I'm inviting them all to come and battle

The Westcoast shit rocks from here to Seattle

Knighthowl be the lockest bald head on the planet

Ya'll getting jealous I know you can't stand it

There's not way not chance it'll ever

I'm too clever I'll burn it up like the devil

So get out the way I'm untouchable

You wann get em up fool I'll be clutchable

Who give you courage was you in church on Sunday

Good Friday bout to be your very last day

On earth, back to before birth

Now I be gone, we gotin to the end of your song

Now more quaters left in your juke box

Left what's next, my opponent got's to face death

So check that ass before I brake you a little some thing

OF from the big SD

[Chorus]

[Knighthowl]

Much love to the fools that be down with the dopest MC

Of course you all know that it's me

How could you forget all the things that I've done

The many times that I made you all run

Like a virgin cup of mornin honey moon that's about to
get it

You done did it know you dome got spilted

Ya'll can get known of this VICTORIOUS

Lyrical I be NOTORIOUS you be the SORRIEST

I know that alot of rappers out here in Diego

They wanna be like me but fool that's impossible

Never possible I ain't tryin to be flossible

Mess around then your life becomes tossible

MC better get a grip I run a battle ship

Punks get a clip in their lips

I'm the wickedest blad headed

Hoo-rider from Diego

Westside you know be the best side

[Chorus]
