[Knightowl]

I heard about some fool

He got in for me

Talkin bout the day he find me

He gonna blind me

But I got some thing else

Up my fuckin sleeve

You wanted static mothafucka

Now you will recieve

A bullet to the dome

To make sure that ass is gone

And one inside your fuckin mouth

You dirty like the south

Cause you's a fuckin bitch

And now you lay inside a ditch

Inside a casket with worms

Got rid of you like germs

So take a fuckin listen

Before you end up missin

Cause you's just a fuckin peon

Have that ass runnin like Deon

So what the fuck you wanna do

So take some steps

I'll turn before you do

Then terminate your fuckin crew

Cause I don't give a fuck

Some say that all dogs have it's day

But why the fuck should I have to worry

When I'm a fuckin bird fool

You'll get attacked by me and Lolo

I'm never solo

Straight out the 619

Come represent my cholos

[Chorus]

I'm goin syko mothafuckas I lost my mind

You best not ever fuck around

And try to take what's mind

I got this game on lock

Through ever fuckin block

I rock the gangsta shit

So fuck those that bump the Hip-Hop

[2x]

[Big Syke]

Niggas wanna murder me

Bury me a G nigga

I bust a flee nigga

The nigga you can't see nigga
Smash on your soil
With AK's and hand gernades
We know where you hang
So we bang streets, renegades
Blast out the escalad yell the set as we jet
Leavie em dead in the street
And have their family cryin for weeks
Shit get's deep so we creep on late night rides
For the homies who die the pride lead to homicides
We'll each surive the pain insane to the brain
I slang cane so I can get more guns for my gang
So it's understood I do this for the hood
The land of the no good South West Inglewood
Where you kill or be killed
Cause it's real on the field
Where niggas will chase you down
And make sure your cap is peeled
It's just the evil mind
Crazy with my daisy shine
And I ain't scared to due no time
For my krime nigga
[Chorus]
[Knightowl]
Once again it's me
Livin life up on a string

I'll shoot that ass
You'll never make up inside the ring
I got my plan premeditated
I live my life X-rated
And all you sons of bitches
Will never be able to fade it
So what fuckin rock did you crawl from under
Puto you ain't shit, I'll rain on you like thunder
Punk bitches all surrender
Your hoes love me tender
I'll get your mothafuckin dome
You's the great pretender
Always talking about how gon do this and that
Best to check yourself look at where you at
This is my fuckin block my fuckin hood my turf
When you spit lyrics fool
They still come soft just like a nerf
I'm still the undisputed when I compete they voted
If a dead man could talk
You would ask him who done shooted
I always get suluted off the map you got rooted
The Knightowl's fuckin gone
I've done mothafuckin hooted
[Chorus]
