[Chorus 1]

[Chorus 2]

[Knightowl]

Bitch I don't mean to disrespect you

But you're nothin but a slut

You's the type of hoe that likes to lick and gobble nut

Don't you act like you's fuckin angel

I heard you like to tweak crystal up the nose

Then you go out and give them blows

To all those fools that give you the rock

They make you suck the cock

You like to slurp to the very fuckin last drop

You open up the legs and let the homies hit it

You say one at a time but would you please form a line

You never turn a dick down you like to suck a bundle

You like to get it rammed and get that shit up in your

jungle

But I know where you've been

You fucked one of my homies

God damn that you bad

Cause now that fucka's livin sad

He got what he wanted but now he's livin haunted

All because in front of him a piece of ass was flaunted

So best to feel a lesson but damn it feels so good

And never trust a bitch it's either plastic or a casket

[Chorus 1]

[Chorus 2]

[Knightowl]

Hey what up fool? You bust your nut?

[Slush the Villain]

Hell yeah homie.
