Saddle Up boys
And kick those tired eyes
We got at least another day before rest
The Road ahead is clear and long
But that's why we're the best
At maintaining our cool
While we slip right on through

Cuz they'll catch you and tear you apart
If you stop and show them your heart
And the devil may chase us till dawn
But one thought can carry us on
Can't bury us all

When they cast their shadow over you
And demand to dominate everything we do
No one can stand
Back and forth no one can last
So lets grab our friends and raise our glasses to
Our dreams come true
But that's why were the best at maintaining cool
As we slip right on through

Cuz they'll catch you and tear you apart
If you stop and show them your heart
And the devil may chase us till dawn
But one thought can carry us on
Can't bury us all

Summer's ending sweetly
I'm glad that you're all with me
Keep us safe, keep us sure
Summer's ending quickly
Fireflies surround me
Make me feel like when I was a boy
Summer's ending sweetly
The night and stars they calm me
The dawn sky fills our hearts with warmth
Summer's ending swiftly
Laughter all around me
Stay up drinking and singing our songs
Summer's ending meekly

No matter how they push me
We stand together as one
Summer's ending sweetly
I'm glad that you're all with me
I've never felt so sure
