I'll drain your blood  
You'll taste my sword  
You'll feel my wraith through this knife  
I'll take your life  
The hole in your head  
Exposes lust  
You never covered your sin  
You cant kill me

I'll hang your coprse before me  
I'll stand and watch you burn  
I'll hang your corpse before me  
I'll hang your corpes before the world

My hands are covered in blood  
A needless murder to say  
I laugh as the blood sprays  
I'm gone

Chainsaw to the pussy

And you'll bleed inside

Kiss the ground as i stomp your head  
Give me a reason to feel wrong  
Your pain builds inside your mind  
Your hate bellows from your lungs

I should have slayed you  
Like that dragon last week  
I will not stop

You cannot fucking stop me  
I will keep fighting  
It wont be over until you're in the ground  
It wont be over until you're in the ground  
It wont be over until you're in the ground
