Guilty of known acts of evil committed against
neighbored kin
Blatantly evil your actions treacherously drenched in
sin
On the steps and ideals of the founding fathers these
trails begin
Sorcerers and false prophets twisting the arms of their
faithful crowds
Doomed to similar fate their eyes turned to behind
themselves
These corrupt barraters lie in acidic boiling wake
Guarded by demons and masters of evil to punish your
mortal mistake

Residing in ditches of stone bridging abyssal fissures
of their home
Eternally guarded by demonic forces that ruthlessly
torture and maim
These evildoers are punished for crimes calculated
and intelligently known
With limb ripped from limb the corrupt reside engulfed
forever in flame

Hypocrites run from certain serpent death guarded by
mighty centaur
Only to be bit and mutate from original human form
Bitten they will be doomed to chase after others who
committed crimes designed
Infinitely penalized until final judgment for their sins
against mankind

Those who pander to manipulate on the Capitol Hill
Misusing and abusing the trust of those whose
promises fell
To corruption and greed of men's world power tainted
and betrayed the hell
Their immortal sins against their own man damning
them to the eighth circle of hell
