Exit the thoughts of yesteryears

Burn memories and let them go

(What is right, what is wrong)

Extinguish pains of things to pass

Relinquish fears and set them off

(What is true, what is false)

Storm off on a tangent then explode right in my face

Leave a trail of ignorance that fuels, that irritates

Seek your refuge, as to dodge disgrace

It's all behind me now - it's all erased

Round and round we go, engulfed and flames and
lights aglow

I say we all fall, we all fall (all fall down)

Back and forth again, it's like this cycle never ends

I say we all fall, we all fall (all fall down)

Purge reoccurring dreams of old

Defeat images unfortold

(Monkey see, monkey do)

Hide all the feelings that I feel

Strike at my existence surreal

(Fuck with me, I'll fuck with you)

Storm off on a tangent then explode right in my face

Leave a trail of ignorance that fuels, that irritates

Make your conscience leave this vile place

It's all behind me now - it's all erased

Round and round we go, engulfed and flames and
lights aglow

I say we all fall, we all fall (all fall down)

Back and forth again, it's like this cycle never ends

I say we all fall, we all fall (all fall down)
