The pressure's building up
This time, enough is enough
Bite the hand that feeds the fire
Brace yourself, this time we're live
And now we face the facts
This time, there's no turning back
Lead the way, take back our lives
Face yourself and cut the ties

And we sing
And join as one
And now we march to the beat of our own drum
Everybody's so afraid to be different
Everybody's afraid to just stand out
Your inner voice is screaming
Take the bait and run, take the bait and run
Everybody's afraid to be let down
Underneath the starry sky
We will unite, we will prevail, we will align

We will forge ahead
Open your mind and sing instead
Break the silence one last time
Stand up for us, for what is right
Federation is at stake
How much more time will it take
To close your mind and make a fist
It's our last chance, it's hit or miss

And we sing
And join as one
And now we march to the beat of our own drum
Everybody's so afraid to be different
Everybody's afraid to just stand out
Your inner voice is screaming
Take the bait and run, take the bait and run
Everybody's afraid to be let down
Underneath the starry sky
We will unite, we will prevail, we will align

Everybody's so afraid to be different
Everybody's afraid to just stand out

Your inner voice is screaming
Take the bait and run, take the bait and run
Everybody's afraid to be let down
Underneath the starry sky
We will unite, we will prevail, we will align
