Safety pinned patches of anarchy, tattoos of unity can you see the irony of it all? Hey there Mr. President even though I'm not your biggest fan, this song is a show of my support. From New York to California this song is an American Song. I heard someone say I'm heading north if this thing goes to war. The sleeve of his flight jacket had an American flag. I guess that's what Ronnny Reagan meant when he said the best offense is a good defense. Do they sell gas masks at Home Depot? From New York to California this song is an American Song. Sometimes George, ya gotta be mean. Forget about the voters who are hugging trees. You gotta follow what's in your heart. I know it's hard, to be President and hard to fill the shoes that Clinton left. You gotta follow what's in your heart. It's sad that it takes a tragedy to restore faith in humanity. I was inspired to write this song to every American across the board who died on nine eleven or in past wars. I wanna thank them all.
