Stabbing at the devil's spawn
The priest aborts the child
Take the body of the whore
And cast it in the fire

We are all sinners here in the godly race
No law above the church
2084!

Marching for the righteous
Cause enslave to the religion
Let yourself be governed by the church for all
decisions

In the future this is hell
The clergy leads the way
No law above the church
2084!

Books being burn with bibles in their place
Pray to the law
Or they'll put you away
Televised sermons, every hour every day
The apocalypse has come
This is how we've paid
